Subject: Civil Supplies - Sugarcane Commandeering Scheme - Hospet factory area - Scheme for 1945-46 - Special Staff - Proposals - Submitted Orders Requested.

I invite attention to copy of my reference 7103/45 N.3 dated 29-10-1945 to the Director of Agriculture, Madras, in which I proposed the appointment of one agricultural Demonstrator, one peon, four maistries, one Special Revenue Inspector and a peon to work under the India Sugars and Refineries Ltd., Hospet, under foreign service conditions. Orders sanctioning the above staff have not been received till now. The factory commenced working on 19-11-1945 and therefore I have appointed a special Revenue Inspector and a peon in anticipation of sanction ~~of sugar~~ as sugar factory has commenced crushing of cane. I request that the orders of the Government sanctioning the staff may be obtained expeditiously and the Director of Agriculture, Madras, requested to make arrangements for the appointment of a Demonstrato

Subject: Civil Supplies - Sugarcane Commandeering Scheme - Hospet - Sugar Factory area - Scheme for 1945-46 - Staff proposals - Recommended.
Reference: Letter Roc.No.7239/45-1-N.3 dated 5-10-1945 from the Collector of Bellary to the Joint Secretary to the Commissioner of Civil Supplies, Madras.

I forward herewith a copy of letter No.C.7103/45-N.3 dated 29-10-1945 from the Collector of Bellary regarding proposals for the appointment of staff for the sugarcane commandeering scheme.

2. Since the Sugarcane crushing has already been started in the factory, a suitable agricultural Demonstrator can be posed for the work in anticipation of sanction of Government if the Board so desires.

3. Necessary sanction of Government may be obtained at an early date, and communicated to me.

PARA 9: As for the actual details of the working what I intend doing this year, is to make the special Agricultural Demonstrator who will be in charge of the scheme and the Special Revenue Inspector who will also be necessary, to inspect the whole area under sugarcane in the 16 villages concerned and prepare a demand register showing the names of all the ryots who have grown sugar cane in the 16 villages this year and the extents and work out the estimated yield of the fields and the appropriate week during which the crop will be mature for cutting; and to work out on the basis of this inspection and estimating a daily roster of supplies to be made to the factory; and then obtain the signatures of the ryots concerned in the register so that the ryots can know at what period of the season they are expected and supply the cane and how much. This will eliminate the system by which the factory now issues permits for the cutting. The demand register will be prepared and kept ready in time before the actual cutting and deliver is to take place.

PARA 10. EXTRA STAFF: The following extra staff will be needed for working of the scheme:

1. One Agricultural Demonstrator
2. One Revenue Inspector and
3. Necessary menial staff for these two as in previous years.

I am making a separate report about the special staff necessary. Before the crushing begins both these Officers will go round the cultivated area and prepare the demand register. When the crushing begins the Agricultural Demostrator will sit in the factory and watch deliveries and the weighment at the factory of the cane supplied and make a note in the register of the persons who supplied and the quantities supplied day by day. The Revenue Inspector will be going round the villages during the crushing season and keep in touch with the ryots and keep reminding them as to when they have to cut. He will also see that there is no illicit crushing of cane and manufacture of jaggery in the villages concerned. The ryots suspect the factory of manipulating the weighing and of not showing the correct weight actually delivered by these ryots. The District Agricultural Officer seems to think that this suspicion is fairly well founded. He thinks that the figure 10.5 shown for recovery by this factory is much too large as the figure is only between 8 to 9 in every other sugar factory. Hence it is necessary to keep a Government employee at the factory to watch the weighment.

PARA 11. It is also proposed to take steps this year to see that the planting of sugarcane to be done at the beginning of 1946 is done on a more scientific basis than now. The ryots are to be induced to plant early in the planting season and space it out during the season so that the cane will come to maturity from November to March. It is necessary that the planting should be so regulated as to allow cutting and crushing to be spread from December to April. I intend arranging the details of this in a conference with the District Agricultural Officer, representatives of the cane growers, the Executive Engineer in charge of the irrigation and others interested in the matter.

Copy of extract of letter No. C. 707/43, R.5, dated 21.2.1947, from the Collector of Bellary, to the Secretary to the Commissioner of Civil Supplies, Madras.

Tahsildar Revenue Divisional Officer, Hospet has made reference for the payment of foreign service allowance and T.A. to the two temporary peons belonging to the Agricultural Department and who were required to work under the Sugar Factory at Hospet under the Cane Commuting scheme for the year 1944-45. In G.O.No. 2130, C. No. 1. dated 4.5.44 the Government have laid down that the terms of foreign service conditions are applicable to permanent Government servants only. As the two peons employed to work under the Hospet Sugar Factory are only temporary peons, the question of granting T.A. allowance and the T.A. does not arise. But in the year 1944-45, the Government were pleased to sanction in their memo. No. 359-C.II/44, dated 6.6.1945, payment of cycle allowance of Rs. 4/- per mensem for each of the peons for the period of their working in the Hospet Sugar Factory. I therefore request that the Board may be pleased to recommend to the Government for the payment of cycle allowance to the two temporary peons for the period noted below.
